ABOUT US

OCEAN LOVERS FESTIVAL

An annual celebration of Ideas, Art + Music and Actions, showcasing some of the latest innovations, science, state-of-the-art technology and cool ideas for helping the ocean. Over the course of five festivals since 2019, the event has grown into Australia's largest cultural and science celebration for the ocean. In 2025, we expanded across Sydney engaging more than 127,000 attendees in marine discovery and entertainment. An impressive 93% of participants reported learning something new and feeling inspired to make changes in their own lives, highlighting the Festival's powerful role in sparking positive behaviour for the planet. In 2026, the Festival returns to its flagship home at Bondi Beach for a weekend of inspiration, connection and high-quality engagement.
